

WIPER PREMIUM SHOWER DRAIN

The WIPER PREMIUM is a series of WIPER linear shower drains. It comprises of a drain body 30 [mm] deep, 84 [mm] wide and a grating which are all made of stainless steel. Length can be, in fact, unlimited. The product is available in various types to meet particular needs and expectations of customers.

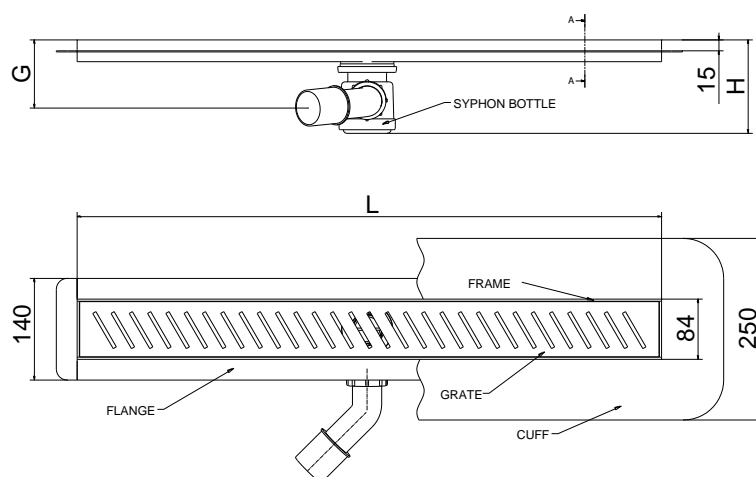

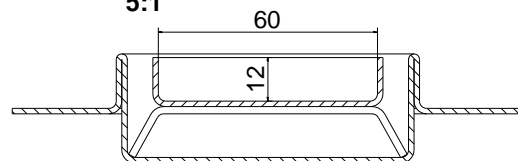

The following surface finishes are available:

- polished
- brushed (satin)
- matt

Standard lengths: 600, 700, 800, 900, 1000, 1100, 1200 [mm]

A - A PURE
5:1

TYPE	H [mm]	G [mm] ²⁾	Q [l/min] ¹⁾
WIPER Premium S	130	80	26/50
WIPER Premium N	100	65	20/38

1) Flow capacity pursuant to EN PN 274:2002 standard (value for column of liquid of 15mm/120mm)

2) Size can be adjusted— average value has been indicated

WIPER PREMIUM linear shower drains incorporate a flange all on four sides of the drain body. This is particularly useful in wooden floors and/or when a perfect seal is necessary. The tiles surrounding the drain are glued down onto the flange creating an excellent seal. A textile sealing membrane is available as an optional extra which is glued down onto the flange. It extends this well protected area around the drain. Apart from standard sizes, PREMIUM drains can be produced in special sizes and shapes like L and [shapes. If you require a linear drain without the flange, please refer to our CLASSIC range.
