

1. Set the level of the finished shower floor surface and establish future shower area by placing the linear drain on top of existing floor boards. Use pencil to draw perimeter around the drain outlet to mark the position of the linear drain and waste trap.

2. Use jig saw to cut across the previously marked linear drain shape. Remember to make an additional cut in the floor so that the linear drain flange is placed flush with the wooden floor.

3. Connect the channel to the drainage system. Make sure that linear drain is flushed in the wooden floor. It is absolutely necessary to remember about the appropriate slope in the wooden floor, which must be at least 2%.

4. Use Superfix glue to seal surface around the drain. Superfix is a silyl modified polymer (SMP) based adhesive with a high tensile strength. Use a glue gun to better distribute the substance.

5. Glue the rest of the floor with normal vinyl floor adhesive.

6. Roll out the vinyl flooring. Remember to install a vinyl floor at least 100 mm on the wall surface. Carefully cut a hole along the inside edge of the VF clamp drain (use heat gun to soften the vinyl).

7. Lock the vinyl floor by placing the Vinyl clamp lock in the drain area. Tighten the provided screws to secure the floor.

7. Lay the grating in the push-in frame.

Warranty terms and conditions

1. The warranty is the manufacturer's, namely Wiper sp. z o.o. company, pledge to repair free of charge physical defects of the product. The warranty period, 25 years, is counted from the date of purchase indicated on the invoice or receipt.
2. The manufacturer guarantees that the purchased product was manufactured in accordance with the approved design, has the properties specified in the product data sheet and is free of defects, has technical parameters specified for this type of product and meets the standards set out in the Declaration of Conformity.
3. Proof of purchase - invoice, receipt must be provided to receive warranty service.
4. The warranty is granted to a person/company indicated on the invoice.
5. The present warranty will not cover the products damaged as a result of:
 - 5.1 – improper handling or operation and maintenance outside the product's specifications,
 - 5.2 – mechanical damage to the product after purchase, during transportation or storage
 - 5.3 – installation contrary to the installation instructions recommended by the manufacturer, an attempt to make technical change or an attempt to interfere with the structure and integrity of the product after its purchase, as well as use of the product after stating its malfunction
 - 5.4 – using chemical agents not covered by the resistance for the material bearing 0H18N9/0H18N10 symbol pursuant to the European Standards EN10088-1, EN10088-2, EN10088-3
 - 5.5 – damage caused by fortuitous events and natural disasters.
6. The warranty applies to the product purchased and does not include the right to seek reimbursement or payment for the damages caused by malfunction of the product, which can be settled only through the court pursuant to the relevant applicable law.
7. Wiper Company undertakes to consider the warranty claim within 14 working days after its registration.
8. Should the claim be accepted, the manufacturer will replace the entire product or its defective part within 14 working days from accepting the claim. The decision of which option to choose lies with the manufacturer and does not require the consent of the claimant.
9. Any warranty claims must be made with the Seller of the product.
